- 1. The meeting was called to order.**
- 2. The minutes from the previous meeting were accepted.**
- 3. Alec gave a briefing on the Agreement in Principle that has been reached by DTSC with DOE and NASA. The Agreement is basically the implementation of SB 990 with two additions. The first is that all contaminated areas will be cleaned to background levels and second, the majority of risk assessments will not be necessary thus resulting in significant savings in the cleanup schedule. Radiological test samples will be split for chemical testing so that the sampling effort is not duplicated.**
